

To Whom It May Concern:

I am a citizen of the United States, of the State of Indiana. I find our Do Not Call

List a very important piece of legislation. We pay to have the privilege of a telephone in our homes. We should not be disturbed and harassed by continuous calls of solicitation on a device for which we pay. It is wrong!

There are plenty of ways to advertise and solicit the people's business without invading the privacy of their homes. The constitution guarantees that the Government cannot practice illegal search and seizure, and I see telemarketing as an illegal invasion of my home by an unwanted person.

Please do not allow the destruction of our Do Not Call List.

Thank you,
